

More application options for the DRILLTEQ V-200. Modernization package for Lamello P-system.

Make your machine fit for the future – modern and flexible. Add the Lamello P-system – the "Clamex" connector – to your vertical CNC processing center.

Your benefits at a glance:

Increase the scope of the application.

Greater flexibility for special requests.

More design options in furniture construction.

Added value in day-to-day business.
